## CAO REPORT

June 28, 2021

### **1. First Street CN Crossing Completion:**

The First Street CN Project was paved on Wednesday, June 23, 2021 and Thursday, June 24, 2021. Around 12:00 noon on Friday, June 25, 2021, this street will once again be open to vehicular and pedestrian traffic. The Town thanks everyone for their patience during this time.

However, on Tuesday, June 29, 2021 this street will be closed for approximately four hours to accommodate line painting.

Council may wish to consider a ceremony marking the completion of this Project.

### **2. Prairie Place Asphalt Pavement:**

On Friday, June 25, 2021 Paramount Paving Ltd. completed the asphalt pavement at Prairie Place. There is a small area on Ross Avenue close to the construction sites that will also be paved, as this area was impacted over the years by contractors and normal wear and tear.

### **3. Water Pumphouse & Reservoirs:**

On Tuesday, June 22, 2021 the mud slab was poured for the Water Pumphouse & Reservoirs. It is my understanding that this concrete is poured to protect the clay below. The floor of the reservoir should be 14 inches (35.56cm) thick and will be poured, along with the walls in the coming weeks.

### **4. Grading and Servicing Plan:**

The water lateral, sanitary sewer lateral and the storm sewer lateral have all been installed at the site of the Public Works Shop/Fire Storage Area. KH Developments are working on the Grading Plan, which should be completed in the coming weeks, weather permitting.

### **5. Public Works Shop/Fire Storage Area:**

I met with Project Manager Stefan Baillargeon at the site of the Public Works Shop/Fire Storage Area. The Town's mechanical consultant has signed off on the Boiler Package, Plumbing Fixtures and Ventilation Package. The grade beam should be installed in the coming month; however, the Town has not been advised of the proposed arrival date of the pre-fabricated engineered steel building.

SaskPower is presently reviewing if the permanent power supply could be used temporary, until the building walls are in place.

### **6. Traffic Calming Area – Loeppky Avenue:**

In 2020, the Town installed speed bumps in the Traffic Calming Area along Loeppky Avenue. I know Council indicated that they would prefer the pedestrian lights relocated to this area. However, I'd like to recommend that a sign in the middle of the street be installed, along with some narrowing curbs, as per the attached picture.

### **7. Rural Municipality of Corman Park:**

On Wednesday, June 23, 2021 Mayor Jon Kroeker and I met with Planner II Jessica Mitchell, Senior Planner Kylie McLean and Planner II Brittney Beckie to discuss the Rural Municipalities Official Community Plan (OCP) and Zoning Bylaw, as these documents are planned to be updated. See previous correspondence from the Town to the Rural Municipality of Corman Park from January 28, 2015 and November 5, 2018 regarding the Established Five per Quarter Constraints Area, as attached.

**CAO REPORT**  
**June 28, 2021**

**8. Great Plains College – April 2022:**

The Town has the first right of refusal regarding Great Plains College and their Heavy Equipment Operator Program for April 2022. I indicated to Region Manager Fritz Eckstein that I would present this to Council, however I told Region Manager Fritz Eckstein that due to the Town's capital activities, the Town would not be interested in April 2022.

**9. Transit Grant – Municipal Infrastructure and Finance:**

Due to the limited use of the Transit Bus for People with Disabilities in 2020, the Town received an operating grant allocation of \$452.00 for the year 2020.

**10. Rail Safety Improvement Program Funding:**

The Town received the signed Amending Agreement No. 2 for the 2021-2022 Rail Safety Improvement Program from Transport Canada on June 25, 2021.

Due to the condition of the asphalt pavement between the railway tracks, CN agreed to remove and replace this asphalt pavement on Wednesday, June 23, 2021. The removal was completed by a CN contractor, while the repaving was completed by Paramount Paving Ltd.

I'm hopeful that this improved rail crossing will serve the community for many years.

Rural Municipality of Corman Park

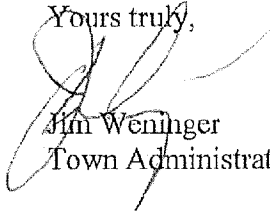

Further to your email of October 11, 2018, please be advised that at a regular meeting held October 29, 2018 Council accepted a third dwelling within the established Five per Quarter Constraints Area.

As the Town of Dalmeny has annexed the property up to the easterly Five per Quarter Constraints Area, Council is concerned that the Five per Quarter Constraints Area does not include the NE ¼ 12-39-6, SE ¼ 12-39-6, NW ¼ 12-39-6, and the SW ¼ 12-39-6, all West of the 3<sup>rd</sup> Meridian and all north of the rail line as per the attached letter dated January 28, 2015. This letter was sent to the attention of Len Kowalko, the then Director of the Community Planning Branch for the Ministry of Government Relations. A copy was also sent to Rebecca Row, Director of Planning and Development for the Rural Municipality of Corman Park.

Dalmeny Town Council would greatly appreciate this constraints area expanded to the east.

I trust this meets with your approval. However, if you have any questions or concerns, please advise.

Yours truly,

Jim Weninger  
Town Administrator/CAO
